For Immediate Release

***City View Road to Open***

***Westfield*** – After approximately fifteen months since it was closed to the public, City View Road will reopen on Thursday October 6, 2022 at 8:30 AM. To celebrate the culmination of the long-term culvert repair project, Mayor McCabe and Ward 4 City Councilor Mike Burns will be joined by City Engineer, Allison McMordie and Acting Director of the DPW, Fran Cain, at 7:30 AM to remove the barriers and declare the road safe for through traffic.

“It has been a ‘long road’ since its beginnings to the completion of this project,” jokes City Engineer Allison McMordie, “Engineering has worked closely with the DPW to deliver the best service to the City, and we appreciate the diligent work of Woodward and Curran and Baltazar Contractors to deliver the highest quality result.”

The completed project includes repair of the culvert, along with installation of the new gas main section over the culvert, a new fire hydrant, and ½ mile of new pavement and guardrails along the road.
