For Immediate Release

*Two Candle businesses will shine on South Meadow Street*

**Westfield-** Monday, November 18<sup>th</sup> at 11:30 AM, Mary Dowling and her team will cut the grand opening ribbon at her 2 businesses at 37 South Meadow Road. Moon Jules Scents will open its new retail location and Whip City Candle Supply House will be the first premier wholesaler dedicated to candle and soap making supplies east of Ohio.

Merry has owned Moon Jules Scents for just under four years, operating under an LLC out of her home selling candles and room scents, and offering workshops on decorative candle making. She has now expanded her business endeavors to include Whip City Candle Supply House; a commercial resource for candle and soap making supplies.

The unique location at 37 South Meadow Road has retail space and a warehouse space that can accommodate both businesses. "When I started candle making, I was spending huge amount of money on shipping. I had no idea what the scents smelled like, and I realized the amount of money that I wasted by not having anything local. That's when I decided to open my own supply company in hopes that other candle makers would be able to save money and get premium candle supplies without having to pay ridiculous shipping cost." Dowling said, "it just made sense to find a location for my warehouse that could also offer a showroom for the retail business and workshop space."

In addition to offering a line of candles room sprays and workshops on decorative candle making, Moon Jules Scents also features a curated collection of works by other local artisans for sale.

Store hours are Friday and Saturday 11:00-4:00 and Sunday 12:00-4:00 or by appointment.
