

Who can I contact with additional questions or concerns about exposure to environmental contaminants?

If you have health questions about potential exposure to environmental contaminants you may contact the Massachusetts Department of Public Health, Environmental Toxicology Program at (617)-624-5757

If you have questions about specific symptoms, or have an urgent medical question, you should consult with your health care provider and/or a specialist in environmental health.

To find a specialist in environmental health, contact the [Association of Occupational and Environmental Clinics](#)

Toll Free: (888) 347-AOEC
(888-347-2632)

To reach a pediatric specialist in environmental health you may contact the Pediatric Environmental Health Specialty Unit (PEHSU) Located at Boston Children's Hospital:

Toll Free: (888)-CHILD-14
(1-888-244-5314)

Email: region1pehsu@childrens.harvard.edu
